

# Quickly Locate Guests

This wireless transmitter quietly notifies guests with a page or text message.

## Easy-to-Use Guest Messaging Solution

The Freedom transmitter is a simple, affordable component of an LRS guest paging system. Used by businesses to notify guests when their product or service time is ready, the Freedom transmitter quietly alerts guests with a text or page. Reach every guest, every time.

### Simplify the Guest Experience

Give guests the simplicity of a pager to discreetly notify them when they are needed.

### Enhance Productivity

Proven as the simplest way to manage guest notifications, traditional paging systems are fast and easy to operate.

### Boost Revenue

Get more guests in and out the door. Locate and take care of more customers with faster speed of service and a better customer experience.

## HOW IT WORKS

- 1 Assign**  
Provide an LRS pager to your guests while they wait
- 2 Notify**  
Staff pushes the corresponding number of the guest they want to alert, and the transmitter sends the guest a page or message.
- 3 Serve**  
Upon receiving the page, the customer returns for quick and immediate response from the staff.
