GUEST PAGING

MOBILE PHONE PAGING SYSTEM

The mobile phone paging system is the ideal solution for any location where pager loss is an issue. Your personalised voice message is stored in the on-board memory. When you page a mobile phone your guest hears the pre recorded mobile message. With this system, fewer pagers are needed; thereby, reducing the up front costs of a paging system.

Compatible Equipment

- Mobile Phone (not included)
- Coaster Call
- Adverteaser (Paddle Pager)
- Alphanumeric Pager (Table Genie)
- Service Pager

COASTER CALL™

The First. The Best. In 1993, the Coaster Call started the guest paging revolution, with its patented charging system. With our shock absorbing bumper and Lexan case, we boast that our coaster pager is the most durable guest pager in the industry.

LOBSTER CALL™

Lobster Call is our unique pager in the shape of a lobster. These fun pagers feature a transparent red case with red, flashing LEDs and a space-saving stack charging design.

PIZZA PAGER™

The Pizza Pager is our only pager that features multiple color LED lights. Red, yellow and green LED's light up the pizza "topping" for a highly visible pager. Also featured is the M-Pact bumper guard for shock resistance.

ADVERTEASER™

The Adverteaser paddle pager was designed with the customer in mind. To minimise breakage, it is manufactured with durable Lexan material, the strongest plastic available. The large, double-sided advertising area holds standard business cards maximising your marketing potential. Utilising 4 LED messaging lights and the strongest vibration on the market, your guests will never miss a page.

Compatible Equipment

- T7450 Mobile Phone Paging Transmitter
- T7400 Standard Paging System Transmitter
- Charger

Mobile Phone Paging

- Pages mobile phones and onsite pagers
- Supports as many as 9,999 LRS pagers
- Easy to use
- Minimises pager loss by using a customer's own mobile phone.
- Lowers up front cost associated with paging systems by having to order fewer pagers
- The wait list timer can accurately display the estimated wait time.

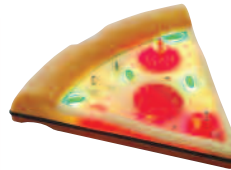

Coaster Call®

- Most popular customer pager
- Rechargeable NiMH battery
- Customisable labels available
- Patented any - orientation stack charging
- Durable M-PACT™ Bumper Guard provides shock protection
- Colors: Blue, Green and Smoked Red

Lobster Call™

- Ideal for seafood restaurants.
- Large size helps prevent theft

Pizza Pager

- Only one of its kind, pizza-shaped pager
- Designed especially for Italian restaurants and pizzerias.

Adver-Teaser®

- Business card-size advertising area
- Vibration, flash, beep or flash/beep alerts
- Strongest vibration on the market
- One-piece construction = no broken clips
- Shock-resistant casing

PUSH FOR SERVICE

COASTER LITE

The Coaster Lite™ is a low-cost, rechargeable coaster. When your guests need service, they push the button illuminating the coaster. Your staff sees the glowing coaster and assists the guest with minimal interruption. Unlike coaster pagers, the Coaster Lite does not flash so it won't interrupt other guests.

Benefits

- Lets a staff member know when service is needed.
- Does not disturb neighboring tables.
- Improves customer service.
- Allows guests to order when they want, without interruptions.

Compatible Equipment

- Charger

Coaster Lite

- Call button in the shape of a drink coaster
- No flashing lights to disturb guests – emits a dim steady light
- Increases sales overnight

PUSHBUTTON PAGING BUTLER II

Pushbutton paging with the Butler II will increase customer service levels and improve staff responsiveness. The simple pushbutton transmitter is easy to use and may be attached to almost any surface. These units can be customised with specific messages, and alert staff with one touch of a button.

Features

- Quality – durable and user friendly
- Scalable – add units to the system at any time

Benefits

- Improve response time
- Enhance customer service
- Eliminate overhead paging
- Messaging is detailed and fully customisable
- Allows quick onsite communication

Compatible Equipment

- Alphanumeric Pager
- Rechargeable Alphanumeric Pager
- Service Pager

Butler II™

- Single or group paging
- On-site pager programming
- USB interface
- Five button or one button
- Uses 3 AAA batteries
- 2.75" x 7" x 1.38"

SERVER PAGING

TABLE LOCATOR – KEY CALL

Perfect for fast casual restaurants that deliver food to the table. Our unique Key Call lets you stop wasting time searching for your guests' tables by letting you know where they sat before you even leave the kitchen. With Key Call, your guests get their food while it's hot, and you get faster table turns and increased server efficiency.

Features and Benefits

- Works with guest pagers for take-away customers
- Push for Service option allows guests to page their waiter
- Key Call Clearing Unit automatically updates Key Call Status Screen
- Clearing Unit also minimises key loss

Compatible Equipment

- T7500 Transmitter
- Key Call Keys with Holder
- Key Call CPU/Monitor

EXPERIENCE THE FINEST IN PAGING SOLUTIONS

LRS on-site wireless paging solutions enhance communication at every level of your operation. Whether you are a non-profit or for-profit business, LRS paging systems significantly increase your business productivity by providing innovative solutions that solve your business challenges.

Experience

Since 1993, LRS has been the leading supplier of on-site customer and staff paging systems by providing the most effective solutions and listening to the needs of our customers

Innovation

Innovator of the popular "Coaster Call" guest pager, LRS holds 19 patents and offers a full line of products designed to help you streamline operations, improve service and increase sales every day. We offer exclusive products and services no other company can. Tell us what you need and we'll provide a system to help you.

Quality

LRS is an engineering and manufacturing company. All of our products are designed and assembled in-house. We closely control quality, and we design pagers with features that are important to you.

Durable and Rugged Pagers

Our pagers are made of extremely durable Lexan® plastic to survive even the most rugged environments.

Separate Pager Holsters

Instead of attached belt clips that break easily, our rechargeable pagers are carried in separate pager holsters. This eliminates broken belt clips as well as the need to return an entire pager for repair.

Value

LRS has always been the leader in value-driven products. We guarantee you'll get the most features for the greatest value. Plus, when you factor in your increased sales due to improved customer satisfaction and staff productivity, our pagers are virtually priceless.

24/7 Customer Support

Our customer service department in Dallas, Texas is available 24 hours a day, 7 days a week to answer any questions you have – even on holidays!

Warranty

We stand behind the quality of our products and provide a standard warranty. Extended and lifetime warranties are also available.
